VOL. XXVI, NO. 63 GAINESVILLE, FLORIDA, WEDNESDAY, APRIL 21, 1909 TEN CENTS A WEEK

PROHIBITION BILL IS ADVANCED BY SENATE

Not Likely to be Further Considered Until Committees Make Report Thursday.

TALLAHASSEE, April 20.—Without opposition, the concurrent resolution offered by Senator Don. C. McMullen of Tampa, providing for a constitutional amendment in order to submit the question of State-wide prohibition to a vote of the people of Florida, was advanced on the Senate calendar to third reading Monday morning. All opposition was seemingly held back until the measure goes on third reading for passage.

A strong discussion between Senator Beard and Senator Harris took place over the latter's bill, giving the State Board of Health very extensive powers in the making and enforcing of rules and regulations for the protection of the health of the State. Senator Beard held that the measure is too sweeping. It was finally referred back on the calendar to second reading in order that it may be amended.

Among bills on second reading were the following:

Senate Bill No. 107, by Crill—Relating to cohabitation. Reported unfavorably but with substitute. Substitute adopted. To third reading.

Senate Bill, No. 102, McCreary—relief of W. A. Snowden of Micanopy. Laid over by request.

Senate Bill, 105, Crill—Prohibiting prostitution of females, under 18 years of age. To third reading.

Senate Bill, No. 109, Crill—Relating to enticing away unmarried females for prostitution. To third reading.

Senate Bill No. 46, Massey—Requiring teachers' summer training schools, and making annual appropriation of $4,000 for maintenance at University, College for Women and Colored Normal School. On table by request.

New Liquor Measure Introduced in House

TALLAHASSEE, April 20.—Providing for the regulation of the sale of liquor in counties where the sale of the same is allowed by law a bill introduced in the lower branch of the Legislature by Mr. Davis of Madison bears the earmarks of a dispensary system and which, if passed by both houses, would place Florida in the attitude of adopting in a measure an initiative taken by South Carolina. In explaining the purpose of his bill Mr. Davis stated that the bill, if enacted into law, would result in the elimination of the treat habit, which he terms the most pernicious feature of the liquor traffic.

In substance, the bill provides that no intoxicating liquors shall be sold in counties where the sale of the same is allowed by law in less quantities than one-fourth of a pint, and no one shall sell any liquors that are not contained in securely sealed receptacles. That no person shall sell or furnish any intoxicating liquors in any quantity to an habitual drunkard personally known to him. That no person, by himself or another, shall sell or cause to be sold, or furnished, to any minor or female, intoxicating liquors in any quantity. That it shall be unlawful for any person to sell intoxicating liquors between the hours of 9 p. m. and 6 a. m. That no dealer shall himself drink, consume or give away any intoxicating liquors in any quantity on the premises where such liquor is sold. That any person violating the provisions of the act shall be deemed guilty of a misdemeanor and upon conviction his license shall be forfeited and he shall be subjected to fine or imprisonment, and that the act is intended to repeal any existing law in reference to the sale of intoxicating liquors. It is further provided that the act shall take effect at midnight of September 30, 1909.

Message From Bryan.

A telegram to the Speaker was received from Hon. W. J. Bryan, acknowledging receipt of the invitation to address the House and reply to certain statements made by Hon. Frank Clark in his speech last Thursday night. The telegram stated that Mr. Bryan could not come to Tallahassee at present, but hoped to be present before the Legislature adjourned.

House Resolution No. 5 was introduced by Carn of Marion, that the House invite Dr. C. C. Carroll of Ocala to lecture to the House upon any subject he may choose Thursday evening. Amendment, changing date to Friday, owing to the Governor's reception on Thursday to the legislators, was offered.

Mr. MacWilliams of St. Johns moved that the matter be referred to the Committee on Public Buildings. Motion was lost.

Mr. Carn of Marion then moved that rules be waived and that Dr. Carroll be invited to lecture Friday evening.

Mr. MacWilliams then said: "Personally, I am opposed to any individual using this chamber for any purpose. Judging from what I've heard of Dr. Carroll he must be an excellent gentleman, and a good lecturer, but I think this matter should go to the right committee first for consideration."

Mr. Carn's motion prevailed, however.

House Bill No. 251 was introduced by Taylor of Hillsborough, prohibiting the gathering and shipping of certain citrus fruits out of season, or in immature state.

Among the bills passed by the House were the following:

House Bill No. 265, by Hilburn of Putnam—Prohibiting the shooting and killing of wild game within a half mile of the city limits of Palatka. Rules were waiver upon motion and the bill was placed on its second and third reading and passed without a dissenting vote.

House Bill No. 266, by Hilburn of Putnam—Incorporating the town of Interlachen. Upon motion the rules were waived and the bill went to the second and third readings and then passed without a dissenting vote.

House Bill No. 267, by Hardee of St. Lucie—Prohibiting the taking of fish with seines or nets from the salt waters adjacent to the counties of Dade, St. Lucie and Brevard. Upon motion the bill was placed on its second and third readings and passed without a dissenting vote.

GOVERNOR GILCHRIST AND BOARD CONTROL

SENDS SPECIAL MESSAGE TO THE LEGISLATURE.

Quotes from Recent Communication from Board of Control as to Existing Conditions.

TALLAHASSEE, April 19.—Governor Gilchrist has sent the following special message to the Legislature:

"State of Florida, Executive Office, April 19, 1909.

"Gentlemen of the Legislature—Your atention is respectfully invited to the following extract from a recent communication from the Board of Control:

"'But for the future, if the Legislature of Florida would have a University free from control in matters of detail by the Board of Education, the members of which are not, and cannot, in the nature of things, because of other duties, be familiar with the work and with the teachers employed, which we believe was the intention of said Chapter 5384, then it is incumbent upon it to amend Chapter 5384 as that the Board of Control shall be supreme in the selection of presidents and teachers, and in the detail management of the institutions of higher education established and supported by the State. Unless this be done Florida will be practically alone in her attempt to confer upon one board towit: the Board of Control, the power to elect faculties, and then to deprive that board of its powers by conferring upon another board, towit: the State Board of Education, the appellate and supervisory power to set aside any selection made by the Board of Control, and thereby practically to dictate the selection of a president or any teacher.

"'It is unreasonable to expect that a man suited to be President of the University would accept employment by the Board of Control, subject to be discharged at any time by the Board of Education, the members of which, because of other duties, cannot be familiar with the man and his work.'—Page 73, Senate Journal, April 12, 1909. Page 4, House Journal, same date.

"Upon advise of the Attorney-General, the State Board of Education decided that Chapter 5384 did give supervisory powers to said board. The board unanimously decided that a change in the presidency of the University of the State of Florida was advisable and would be for the best interests of that institution. This is the first and only time in four years that the State Board of Education has seen fit to make use of such powers. As to whether 'it is unreasonable to expect that a man suited to be president of the University would accept employment by the Board of Control, subject to be discharged at any time by the Board of Education,' it is to be observed that whether it is 'unreasonable' or not the gentleman who was recently selected by the Board of Control to be president of the University, and the gentleman who was recently selected by the Board of Control to be president of the Florida Female College have accepted employment. The State Board of Control intimates that the action of the Board of Educatinon is 'a reflection upon our management of the University.' The State Board of Education did not intend any reflection upon the management of the Board of Control. The State Board of Education unanimously decides that for the best interests of the University a change was desirable. That is all.

"As to the unreasonableness of any supervisory control over the actions of the Board of Control, your attention is invited to the following:

"The trustees of the various school districts in Florida are, in many respects, subject to the supervisory

FOUR MEN LYNCHED BY OKLAHOMA MOB

Infuriated Citizens Put to Death Alleged Murderers of United States Marshal Bobbitt.

ADA, Okla., April 20.—Two hundred citizens of Ada, nearly all of them of the better class, thoroughly disgusted with the "justice" meted out to criminals in the smaller towns of Oklahoma, early yesterday took from jail and hanged four wealthy landowners for the murder of Deputy United States Marshal A. L. Bobbitt. The lynched men were G. B. Miller, Fort Worth, Texas; B. B. Burrell, Duncan, Okla.; Jesse West and Joseph Allen of Canadian, Texas.

Shortly after 3 o'clock in the morning the lynchers shut off the electric street lights, cut the telephone communication and quietly gathered near the jail. When all had assembled, a large man swaggered out of the dark and said:

"Are you all ready?"

A confused buzzing was the only answer. The men silently made their way toward the jail.

They had scarcely started before they met County Attorney Robert Wimbish, who had received word that the mob was forming. The crowd stopped at his request. Attorney Wimbish said:

"Men of Ada, you are disgracing this community in the eyes of the world. Think this matter over calmly and let the law take is course. I appeal to you as an officer of the law to return to your homes."

The mob, without a word, proceeded on its way. The attorney attempted again to talk to them. "This is no time for speeches," said the leader, and the march continued.

A high board fence surrounding the jail was partly thrown down and the crowd entered the enclosure. The leader advanced and pounded on the jail door. Only Guard McCarthy was on duty.

"McCarthy," said the leader, "open this door at once. We mean business. Hurry, it's near daylight!"

"You might as well go home, boys," quickly responded the officer. "This door will never be opened from this side."

Jail Broken Open.

After a conference three of the mob threw themselves against the frail jail door and the mob rushed in. Guard McCarthy was knocked senseless with a revolver butt. The four prisoners were quickly taken out, although West fought desperately.

"If you're going to hang me, do it quick," said Miller.

The mob led the four men to a barn a few hundred feet away and stood them in a straight line.

"Tell us what you devils know about Bobbitt's murder," shouted the mob leader.

West answered for the four, saying: "We don't know who you men are and we don't care. For myself, I know if I had a six-shooter, a few of you would bite the dust, but that's talk as long as my 'shooting iron' is in Texas. You boys appear to have a job to do. Why don't you do it? We won't tell anything and you—"

"The ropes," the leader broke in. The four prisoners were carried to a beam and strung up in a row.

Just before the rope was placed about his neck, Miller calmly removed a diamond from his shirt front and requested that it be sent to his wife in Fort Worth. From his necktie he drew out a diamond scarf pin with the request that it be given to Guard McCarthy for his kindness to him. As soon as the men were dead the mob disappeared. At daylight thne bodies of the lynched men were cut down.

When the mob removed the men from jail they did not molest Oscar Peeler, 17 years old, who was implicated in the murder, but who turned State's evidence. The boy said that Miller killed Bobbitt and that Jesse West paid Miller to commit the murder.

A coroner's jury returned the folqwing verdict:

"We find that Jim Miller, B. B. Burrell, Joe Allen and Jesse West met their death by being hung by a rope and that the death of each was caused by strangulation produced by the rope placed about their necks by parties whose names are to the jury unknown."

The county attorney declared that he would investigate the lynching, but asserted that there was no evidence of identity, and that there probably would be no prosecution.

Governor's Reception To Occur Thursday Night

TALLAHASSEE, April 20.—Governor Gilchrist today sent the following special message to the Legislature:

"Gentlemen of the Legislature—On Thursday night, April 22nd, I will give a reception and dance in honor of the members of the Legislature, at the Mansion. The reception is from 9 to 10:30; the dance from 10:30 to 12 o'clock.

"In this invitation my mother heartily joins me.

"I have the honor to be,

"Very respectfully,

"ALBERT W. GILCHRIST,

"Governor."

Revival Meetings.

The meetings at the Advent Christian church began Monday night with good prospects for success. The subject was very appropriate for the beginning, "Our Dependence for Success;" text, "Not by might, nor by power, but by My spirit." Ech. 4:6. One young man came forward at the close, uniting with the church. Meetings throughout the week. All are welcome.

DUCATIONAL CONFERENCE RESOLUTIONS

ASSED BY SESSION HELD IN ATLANTA, APRIL 12 TO 14.

arnegie Foundation and General Educational Board Had Representation at the Meeting.

No matter in education is of more oment today than the articulation f secondary schools and the college or this reason unusual significance ttaches to a conference held Monday uesday and Wednesday, April 12, 13 nd 14, at Atlanta, in connection with he Conference for Education in the outh, between certain representa ves of higher education and those ho are studying the conditions of econdary schools. The conference as called by Dr. Wallace Butterick, ecretary of the General Education oard, and President Henry S. ritchett of the Carnegie Foundation. here were present at it, in addition these gentlemen, Dr. E. C. Sage, f the General Education Board, Mr. braham Flexner and Mr. John G. owman of the staff of the Carnegie oundation, and the following Proessors of Secondary Education in e Southern States: Prof. Bruce R. ayne of the University of Virginia, rof. N. W. Walker of the University f North Carolina, Prof. W. H. Hand f the University of South Carolina, rof. Joseph S. Stewary of the Uniersity of Georgia, Prof. G. M. Lynch f the University of Florida, Prof. P. Claxton of the University of Tenessee, Prof. J. J. Doster of the Uniersity of Alabama, Prof. B. W. Toryson, Professor of Secondary Educaon in the State Department of Edution, Arkansas; Prof. S. E. Weber, tate Inspector of High Schools of ouisiana.

The general conclusions of the conrence are expressed in the following esolutions adopted at the final meetg on Wednesday.

"1. It is most necessary to imress upon the public the fact that the ementary school, the high school, e college and the university, hether supported by taxation or in her ways, are parts of one system public instruction, not unrelated d independent schools. A State n secure educational efficiency only hen these different parts of its ucational system articulate and coerate.

"2. To secure such co-operation d co-ordination some effective form organization and supervision must adopted by each State.

"3. This form of organization ould include expert superintendence er public instruction, both in State d county.

"4. Such officers should be chosen om the best educational experts and eir places should be made equal in gnity, responsibility, remuneration d freedom from political interferce to those of the best-paid officers colleges and universities.

"5. Such supervision of education ould work in effective co-operation th the institutions of higher learng. All colleges and universities, hether upon public or private founda n, are public institutions, and owe to themselves and to the cause education to take an intelligent and mpathetic interest in the up-building of secondary and elementary hools; not simply as feeders to emselves, but as factors in the onomic and social advancement of e State.

"6. In virtue of their duties as pub institutions all colleges, whether nnected with the State or with a nomination or not, ought to give e access to their records and full formation to the public concerning details of their academic and finanal administration. The honest colge has everything to gain and noth g to lose by taking the public into confidence.

"7. While the elevation of standds in the colleges and professional hools is greatly needed, the honest forcement of the standards already opted will go far toward the proper fferentiation between the functions the college and the high schools, d would tend toward their articulaon rather than the overlapping now common.

"8. More generous provisions for e training of teachers is a pressing ed in the educational systems of any States. It will require the most fective work on the part of normal schools and the departments of education of the universities to meet the extraordinary demand for teachers during the next two decades. Such work should, however, only be undertaken by institutions with adequate resources in income, equipment and n teachers."

Fifty Cents a Month

Not Worth It.

A young man, after his banns had been twice announced, called upon the busy vicar early one morning. He wanted to have a private word with him about the banns.

"Well," said the vicar, "what is wrong?"

"Oh, it's the girl's name."

"Hasn't it been given correctly?"

"Oh, yes, it's correct enough, but I want you to put another girl's name for the third calling. I've changed my mind and would rather marry Mary 'Arris instead of Sarah Jenkins."

The vicar lectured the youth upon his fickleness and told him if he wanted any alteration it would be necessary to make a fresh start and have the banns published afresh.

"What, and pay another shilling?" gasped the lover.

"Certainly," replied the vicar.

"Well, in that case you had better let it be as it is, and I'll marry my first love."—Pearson's Weekly.

GOVERNOR GILCHRIST AND BOARD CONTROL

(Continued from Page One.)

control of the various county boards of education. The educational matters of the State are in some respects subject to the supervision of the State Board of Education. The appointments of the Governor are subject to confirmation by the Senate. The acts of the Legislature are subject to approval or veto by the Governor. The constitutional amendments passed by the Legislature are subject to the approval or veto of the qualified electors. There is no religious organization in the world in which the actions of those in immediate charge are not subject to the approval or rejection of the conference, presbytery or some convention of the same. There is no well-conducted business organization in the world in which the actions of those in immediate charge are not subject to the action of some higher power, usually denominated directors. There does not appear to me to be any reason to presume that the personnel of the Board of Control in some future ages might not be of such a nature to require supervisory by some higher power. Kipling says that one of the most conclusive proofs to him that there is a God is that there must be a higher power which would have supervision over the highest powers in the British Empire. Whether the Board of Control should be the only organization in the world which should be exempt from responsibility to supervisory powers, except, perhaps, the King of Timbuctoo, who is not an organization, is a matter for your earnest consideration.

Very respectfully,
"ALBERT W. GILCHRIST,
"Governor."

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism. J. W. McCollum & Co.

City of Snow White Domes.

The little city of El-Oued, with its population of 8,000 people, at the extreme south of the province of Constantine, in Algeria, is unique even for a Mohammedan city, because of the great number of its snow white domes or cupolas. So extraordinary is the great number of these cupolas that many writers have referred to El-Oued as "the city of a thousand cupolas." The homes of the residents of El-Oued are constructed of white plaster and were it not for the whiteness of the domes would be taken at a cursory glance to be a city of coke ovens.—Popular Mechanics.

She Had Tested the Oyster.

Dora, the pet of the household, was very fond of oysters, and after eating her lunch of oysters and crackers she thought of her dear mother busy at her sewing machine. She selected a nice large oyster, put it in a plate and carried it to her mother, who, pleased with her little daughter's thoughtfulness, ate the oyster and said:

"It is most as good as my little girlie."

"Yes," answered Dora, "I know it is good 'cause I licked it all the way from the kitchen."—Delineator.

NEWBERRY NOTES.

NEWBERRY, April 20.—Dr. and Mrs. J. F. Ruff and little son are home again, after a week's visit to relatives at Pensacola.

Misses Ola Studstill and Eloise Smith returned Friday from Bronson, where they spent several days visiting friends and relatives.

Mrs. Chas. Green of Jonesville was shopping here Saturday.

Miss Annie Price of Wade is here, a guest of her aunt, Mrs. Bryant Smith.

Master L. R. Weeks, the interesting little son of Dr. and Mrs. Weeks, of Trenton, spent a few days here last week, a guest of his aunt, Mrs. Tucker.

Miss Lillie Scarborough of O'Brien was last week the guest of Mrs. Peacock and family.

Mrs. Code Weeks and little son, William L., are home again after a pleasant visit to the former's parents in Gainesville.

Burke Methvin of Dunnellon is here for a few days, the guest of his sister, Mrs. F. D. Alley.

Objects to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by all druggists.

Returns to Gainesville.

G. A. Blanc has returned to the city from Volusia county, where he spent the past several months superintending a large celery farm for parties there. He states that from three acres planted to this vegetable there was $1,000 cleared and the farmers generally were successful the past season. He is a landscape gardener of rare ability and will make Gainesville his home until next season.

GAINESVILLE HARDWARE CO.

THIRD GARAGE FOR GREATER GAINESVILLE

LARTIGUE & LILIENBLUM ORGANIZE FOR HANDLING CARS.

Will Rent Quarters for the Present, But Expect to Build Within a Very Short Time.

B. Lilienblum and R. E. Lartigue have formed a partnership and secured the agency for the celebrated Ford roadster and touring car, and intend opening up a garage here within the next few days.

The fever has struck this city hard judging by the many that are engaging in the business. These people, too, will build a garage, and besides handling this car will do all classes of repairing and handle supplies.

B. Lilienblum will have charge of the mechanical department of the shop and Mr. Lartigue will have charge of the sales department. Each having a full knowledge of their respective lines will make a success of the venture.

There will be "something doing" here when the three shops are in operation. The latest enterprise of this nature will be started before they will have time to erect the proposed shop, as they will rent temporary quarters.

They have sold two cars already and have a carload of machines now en route to this city, therefore if you are figuring on buying a new car it would be well to investigate what they will have to offer.

CAN'T LOSE HAIR

Twenty Years From Today a Bald-Headed Man Will Be an Unusual Sight.

One of the most prominent druggists of America made a statement a few weeks ago which has caused a great deal of discussion among scientists in the medical press.

He said: "If the new hair grower, Parisian Sage, increases its sales as it has during the past year, it will be used by nearly every man, woman and child in America within eight years.

"And when Parisian Sage is used almost universally, dandruff will disappear and with its departure baldness, itching scalp, splitting hair and all scalp diseases will follow and twenty years from now a baldhead will be a rarity."

There is only one way to cure dandruff and that is to kill the germs. There is only one hair preparation that will kill the germs, and that is Parisian Sage.

This unusual hair restorer with its record of thousands of cures will grow hair on any head where there is any life left; it is guaranteed by W. M. Johnson to cure dandruff, stop falling hair and itching of the scalp in two weeks, or money back.

It is the most pleasant and invigorating tonic, is not sticky or greasy and is used extensively for ladies of refinement, who desire to have and to keep their hair soft, lustrous and luxuriant.

Only 50 cents for a large bottle at W. M. Johnson's and leading druggists everywhere, and remember when you buy a bottle of Parisian Sage you get more for 50 cents than the makers of ordinary tonics give you.

Having Front Changed.

Nic Francisco, the banana man, is having the front of his store building torn out and will have it entirely remodelled and arranged to accommodate his largely increasing business. He states he is making the change so the people may see a first-class fruit store, run as it should be, and expects to make it the leading fruit store of the State.

A Baby Show in Gainesville

Would have many contestants; but it's safe to say that the healthiest baby would win the prize. No baby can be healthy who suffers from worms, and most babies do unless they are kept free from them with White's Cream Vermifuge. Acts quickly, yet mildly—is its own purgative. Mothers, don't attempt to raise children without White's Cream Vermifuge. Price 25 cents. Sold by W. M. Johnson.

MICANOPY BUILDING.

Mrs. Carlton Erecting Handsome Brick Block at That Place.

Micanopy is keeping pace with other sections of the county in the building line.

Mrs. Carlton is now having a two-story brick building erected there which will be a credit to the place and add to the business section. In addition to this building there is being erected a handsome home for W. R. Abstein and much repair work is going on in the town.

The Sun is pleased to note the many improvements in all sections and trusts that this will be the banner year for Alachua county.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp, or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. The medicines usually given internally for rheumatism are poisonous or very strong medicines. They are worse than useless in cases of chronic and muscular rheumatism. For sale by all druggists.

CATARRH MICROBES

A Dead Microbe Is the Best Microbe. Hyomei Kills Them All.

Hyomei (pronounced High-o-me) is a killer of catarrh germs, because when you breathe it in, its antiseptic and germicide properties reach every nook and crevice of the mucous membrane from the mouth and nose deep into the lungs.

Hyomei brings the Australian forests of pine and eucalyptus to your home. It is made of the active principles extracted from these trees.

No one who lives in or near these forests suffers from catarrh. No one who breathes in Hyomei, the real forest air of Australia, will have catarrh for long after the treatment starts.

If you want to cure catarrh, croup, bronchitis, coughs, colds, asthma, hay fever, or relieve consumption, try Hyomei, the common-sense cure, the cure that reaches the spot.

A complete Hyomei outfit, including a hard rubber inhaler, costs only $1.00, and extra bottles of Hyomei, if afterwards needed, cost but 50 cents. Guaranteed to cure, or money back. Sold by leading druggists everywhere. Sold and guaranteed in Gainesville by J. W. McCollum & Co.

Many a man of unquestionable talents has failed in life because he did not realize the value of concentration.

Not many men attain greatness but it is possible for everyone to attain goodness. And that, after all, is most to be desired.

To be impatient is much like a captive bird vainly struggling against the bars of its cage—it merely ruffles and aggravates.

Some people think they have convictions when in truth they have but opinions. Opinion is temporary and superficial while conviction is deep rooted and lasting.

A little timely help wisely given when a man is in danger of failing morally or in his business would, in many cases, help him to keep his feet and retain his integrity.

The bishop who recently condemned the style of hats women are wearing this year may be credited with possessing a great deal of courage, but experience should have taught him that any masculine onslaught on feminine fashion in hats and dress avails nothing.

As warm weather approaches the authorities should see that all alleys are cleaned up and kept clean. Decaying fruit or vegetables are not conducive to good health and should not be thrown in out-of-the-way places, but placed where the garbage wagons can handle them.

The New York Packer is doing much to advertise the trucking interests of Florida in an indirect way. The correspondence from various sections of the State appearing in that journal is being widely copied and will no doubt be the means of interesting many as to this State's resources.

One of the features of the new San Francisco is its sanitary condition, making it one of the cleanest and healthiest in the country. After a proper agitation of the subject of sanitation, a conference was held and a committee appointed to conduct a crusade. Meetings were held with representatives of various industries, and in this way no opportunity for ignorance was allowed. One of the dangers feared heretofore was the bubonic plague, and the results in the diminution of cases have been most satisfactory.

The Railroad Commission, in answering a request for a new passenger depot nearer the business center of Starke, states that the Seaboard Air Line being in the hands of receivers seriously embarrasses the Commission in the matter of enforcing orders against the railroad and deems it advisable to let the matter stand for the time-being, since the railroad company did erect a new passenger station in Starke a few years ago. The Commission is endeavoring to render assistance in every way possible to the people of the State, but are without power to bring action in the State courts against the Federal receivers of the Seaboard to compel compliance with an order of the board as they are under the jurisdiction of the Federal judge.

WALKING A BEAT.

Walking a beat is an easy job, but it tends to give the policeman a false perspective, says the Miami News-Record.

After some years of sauntering up one side and down the other his beat becomes to his mind the center of the world, the hub of the universe.

The happenings of the day are important relatively as they bear on the interests of the people on his beat.

But it is not only policemen that walk beats.

Nearly every man of us has his little beat which he patrols.

He goes from his home to his place of business, and from his place of business to his home.

He sees the same people and does the same things day after day.

So each woman, too, patrols her beat.

She has a routine of household and social duties from which she seldom departs.

On certain days she does certain things as if she were a slave to her sense of order and the customs which she has established.

And, like the policeman, each one of us is apt to view all creation from his particular beat.

The mind which instinctively lays out a routine and establishes habits in every set of conditions is often misshaped by its own routine.

In order to prevent the mind from becoming permanently distorted every person should go away from his beat, once in a while, and view the world from some new coigne.

The business man should take up some recreation. The mechanic should take an annual vacation in the country. The farmer should spend a few weeks every year in the city. The city lawyer should experiment with farming. The housewife should go to a hotel once in a while for dinner.

Such departures from routine should send the blood through unused corners of the brain and tend to prevent the atrophy of faculties which are not employed when one is regularly patrolling one's beat.

They prevent the mind from becoming a mere animated tool, fitted for the performance of certain routine operations and in all other respects ossified.

The Attorney-General has made public a letter addressed to Swift & Co., the Chicago packers, in which he tells them that they have been accepting rebates but that they will not be prosecuted if they will promise to be good in the future. Under the last administration the packers would have been prosecuted for such violation of the law, despite the fact that it was a custom of long practice and that the packers seem to have been ignorant of the fact that they were violating the law. It must be admitted, however, that it is doubtful if such a prosecution would have resulted in a conviction, so it is perhaps to the best interest of the public that they should be let off with a warning this time and the Government thus saved the expense of a useless prosecution.

The baseball season is now on and throughout the rest of the summer other things will be relegated to the rear. The tariff, Castro, and many other matters are important in a measure but they will not compare with the struggle between the league teams in the baseball world.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free,

WHITHER ARE WE DRIFTING?

Is this country losing its Democratic ideals? We are moved to ask this question by the reports from Washington which indicate that it is almost impossible for President Taft to attend church on Sunday without being almost mobbed by curious throngs of sight-seers on the streets of the National Capital.

On Easter morning a great concourse of people who gathered outside of St. John's church, where Mr. Taft attended service with his wife, practically compelled Mr. Taft to stop and hold an open air reception before he could return to the White House.

Americans have always been ready to ridicule the English who make fools of themselves over their royal family, standing on the streets for hours to see its members pass by and cheering themselves hoarse on such occasions, but if we are not careful we will give the British press an opportunity to indulge in no end of sarcasm at our expense. Moreover, such conduct is un-American and undemocratic and there seems to be little excuse for indulging to such an extent on the privacy which even the President ought to be permitted to enjoy on one day of the week.

General Booth of the Salvation Army has only recently celebrated his eightieth birthday. The amazing vitality and activity he displays and the plans he is making for a visit to this country show that he has no intention of being "Oslerized." While General Booth is conspicuous he is by no means an exceptional example of active and useful old age. In every walk of life men of mature years are to the front with no slacking of enthusiasm and with the ripe wisdom of experience.

Judging from the sensational alarmist reports concerning the relations between England and Germany and about European politics in general, some of the European correspondents of large American dailies have a fertility of imagination that fits them for membership in a certain club.

Our faculties and our character need just as much cultivation in order to produce best results as do the crops, which with such intelligent care, the farmer raises on his broad acres.

Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says The Chicago Tribune, "moderative laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by all druggists.

PREFERRED DEATH TO PRISON SENTENCE

DR. ROSA S. MONNISH OF ATLANTA KILLS HERSELF.

Had Been Sentenced to the United States Prison for a Year for Sending Threatening Letters.

ATLANTA, April 20.—Preferring the chill of the grave to the chill of a prison cell and the shroud to the garb of a convict, Dr. Rosa S. Monnish drank prussic acid and died yesterday an hour after she had been sentenced to serve two years in the Federal penitentiary at Leavenworth, Kans., Deputy United States marshals, in whose charge she had been placed, found after they had broken open the door to her room. Mrs. Monnish had been more or less in the public eye in the South for several years. She built a sanitarium in the most aristocratic part of Atlanta, a few years ago, despite the efforts of neighbors to prevent the opening of the place. Later, her methods came under the scrutiny of the postoffice inspectors, but it was not until she had trouble with her husband that the officers could get evidence against her. They charged her with sending improper and threatening letters to a young woman and secured her conviction. Her attorneys applied for a new trial and it was overruled yesterday morning by Federal Judge Newman, who at once sentenced Dr. Monnish to serve one year and one day in prison and to pay a fine of $1,000 on each of two counts.

Dr. Monnish fainted when the sentence was imposed but recovered and asked to go to her room. The officers consented, simply stipulating that they lock her in her room and remain on guard outside. While her attorneys were preparing an appeal bond, she accompanied the officers in a cab to her room. About 2 p. m., the guards called to her to come to luncheon. Receiving no reply, they forced the door and found their aged prisoner dead on her bed.

Dr. Monnish was 60 years of age and besides her husband, also a physician, she leaves a daughter, Jeannette, aged 13.

HANDS AND FEET ITCHED 12 YEARS

Suffered Terribly from Eczema which Made Hands and Feet Swell, Peel and Get Raw—Arms Affected, Too—Gave Up Hope of Cure.

USED CUTICURA AND WAS QUICKLY CURED

"I suffered from eczema on my hands, arms and feet for about twelve years, my hands and feet would swell, sweat and itch, then would become callous and get very dry, then peel off and get raw. I tried most every kind of salve and ointment without success, only get temporary relief. As soon as I would leave off using them I would be as bad as ever. I tried several doctors, took arsenic for two years and at last gave up thinking there was a cure for eczema. A friend of mine insisted on my trying the Cuticura Remedies but, supposing they were the same as other 'cures' I had tried, I did not give them a trial until I got so bad that I had to do something. I secured a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent and by the time they were used I could see a vast improvement and my hands and feet were healed up in no time. I used several bottles of Cuticura Resolvent. This was over a year ago and have had no trouble since. I think I am entirely cured. Charles T. Bauer, R.F.D. 65, Volant, Pa., Mar. 11, 1908."

BABIES CURED
Of Torturing, Disfiguring Humors by Cuticura.

The suffering which Cuticura Soap and Cuticura Ointment have alleviated among skin-tortured, disfigured infants and children, and the comfort they have afforded worn-out and worried parents have led to their adoption in countless homes as a priceless treatment for the skin and blood. Eczema, rashes, and every form of itching, scaly humor are speedily cured, in the majority of cases, when all else fails.

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

Somewhat Puzzling.

It is not at all surprising that the American vernacular should sometimes prove a little too much for the Englishman. A case in point was that of a visitor from London who came to New York last summer and was taken by his host to see one of the league baseball games at the Polo grounds. The game had progressed as far as the third inning without anything in particular happening, when suddenly one of the Giants pounded out a three bagger that set everybody howling with joy.

"That was a bird!" ejaculated the Englishman's host after the excitement had subsided.

A moment later a foul tip sent the ball flying back to the grand stand.

"And what do you call that?" queried the Englishman.

"That's a foul," said his host.

"Ah," returned the Englishman, "a fowl, eh? Well, it seems to me that the language of baseball is most extraordinary. A fowl is a bird and a bird is a fowl, and yet you use these terms to describe two plays that seem to me to be diametrically opposed to each other. Do you call that logical?"

The Englishman is still trying to think it out.—Harper's Weekly.

England's Generals.

There has not been an English general since Marlborough. Wellington was born at Dangan castle, Meath, of an old Irish family called Wesley and christened in Dublin. Wolfe was born at Ferneaux abbey, Kildare, and christened at Westerham—nearly in the same case as the Brontes (Brunty). His grandfather defended Limerick against William III.

Sir John Moore and the Napiers were Scotchmen, and so was Abercrombie (Egypt); so were Napier of Magdala, Crawford and Clyde. Wolseley, Roberts and Kitchener are Irish; so was Gough. The generals and statesmen who saved India to Great Britain were Neill, Nicholson, the two Lawrences (Irish), Edwards (Welsh) and Rose (Scotch).

I know of Wolfe because my great-grandfather served under him at Quebec. His Irish birth was corroborated to me by Captain Dunne, once well known in literary circles of a Queens county family. I don't know whether Scotchmen like to be called English, but certainly Irishmen do not.—London News.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. J. W. McCollum & Co.

WHITE HOUSE HAS A COLD STORAGE SYSTEM

HAS BEEN COMPLETED AND TURNED OVER TO OWNER.

More Rooms to Be Added Before Next Season, if Present Increase Still Continues.

The White House now has its own refrigerating plant and not only does its own freezing, but will shortly be prepared to make the ice used in the hotel.

Major Thomas has just had installed a new machine and a patent ice box and cold storage plant that will enable the management to better keep all fresh meat, butter, cheese and other perishables consumed in this popular hostelry.

The machine is one of sufficient capacity to freeze all ice needed and to furnish cold storage for all purposes with but little additional expense.

At the present rate it will only be question of a short while before the entire lot owned by the White House will be taken up in building, as the new eight-room addition is not completed and still more will be added if the present increase in business continues.

Major Thomas is of the opinion that the installation of this new refrigeration plant will better enable him to take care of the fresh meats and other supplies consumed in the business.

The Health of Your Horse

will be best promoted—best preserved—if you are ready to give the proper remedy at the proper time. The proper remedy for all strains, sprains, or colic is Perry Davis' Painkiller. The proper time to use it is when the trouble first shows itself. Be prompt and you'll not only save the horse suffering, but you'll spare yourself trouble and expense—maybe save a long time waiting. You ought to have a bottle ready. The new size bottle costs 25 cents; one larger 50 cents. Be sure your druggist gives you Perry Davis'.

NEEDFUL KNOWLEDGE

Gainesville People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's Disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneks at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Gainesville proof:

Mrs. James Doig, 902 Alachua avenue, Gainesville, Fla., says: "It is now, some time since I used Doan's Kidney Pills and I am glad to say that I have had no need of a kidney remedy. Several years ago Doan's Kidney Pills drove away a severe attack of kidney trouble and time has proven the cure to be a permanent one. I take pleasure in recommending Doan's Kidney Pills to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

"Now, see here, if you are going to prolong this line of thought you can go right to bed."

"But, pop!"

"Well, what?"

"How does a chicken come from an egg?"

"Oh, any hen can sit on an egg and hatch it."

"Gee! I'm glad I ain't a hen. It must hurt to sit on a hatchet!" (Hasty exit.)—New York Times.

CAME ON THE JUMP.

A Signal That Brought the Busy Waiters in a Body.

To get a waiter quickly in a big cafe is at times very difficult, but a Germantown man recently learned a method from a New York friend which is guaranteed instantly to bring not one but several waiters. This Germantown man was giving a dinner in one of Philadelphia's swellest cafes, with the New Yorker and two women as his guests. After a long delay a waiter came and took the order. Then one of the women decided that she must make a change in her order. The host signaled one waiter after another without avail. After about ten minutes of violent gesticulating on his part the New Yorker said:

"You don't know how to attract their attention. I'll bet you $5 I can bring a waiter to this table within thirty seconds."

"I'll take the bet," said the Philadelphian, drawing out his watch. The New Yorker reached over into the middle of the table, picked up a thin, delicate glass and deliberately dashed it to the floor. Instantly every waiter in the room came rushing up to see what was the trouble.

"Charge one tumbler up on the bill," said the New Yorker laconically, "and change one of those oyster orders to Blue Points."

As the waiters dispersed he added, "I guess you owe me a five spot, old man."—Philadelphia Record.

Fishing Snakes.

While fishing in the Fort St. George moat, at Madras, a correspondent of Country Life saw a snake fifteen inches long come out of the water with a fish in its mouth. On catching sight of the writer it dropped the fish and bolted, leaving the fish on the bank alive. On another occasion, while fishing in a reservoir near Ghaziabad, he again saw a snake emerging from the water with a fish in its mouth. This snake was about twenty-four inches long, and on killing it he was able to identify the fish as a common species of Indian fresh water fish. Later on he saw a viper, nearly four feet long, lying in shallow water. The writer hooked it ashore with his tackle, upon which the snake attacked him, leaving a large yellow fang in his fishing rod.

The Old Ones.

"We'll have to give up the idea of puttin' pictures in the parlor, Jane," remarked old John Turnipseed as he threw the bridle under the table.

"Why?" asked his wife.

"Too dear! Why, I priced one in town today, and the dealer sez, sez he, 'That's an old master; it's price is £500.'

"'Why,' sez I, 'it looks like a second-hand pictur'.

"'Yes, it is,' sez he.

"Then, thinks I, if a secondhand pictur' costs that much it's no use to price a new un. So, Jane, I reckon we'll have to hang up a few mottoes, 'God Bless Our Home' and the like, and let the pictur's go."—Pearson's Weekly.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operating.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

COMMISSIONERS ARE ELECTED BY FIREMEN

HELD AN INTERESTING MEETING MONDAY FOR PURPOSE.

First Time Such Action Has Been Taken, Although the Ordinance Specifies It.

At a called meeting of the firemen Monday evening, the department got down to business and elected a board of fire commissioners, an item that has long been overlooked but which is specified in the ordinance governing the department.

It is the duty of this board to perfect rules and by-laws governing the firemen and they will at once commence this work.

The board selected is composed of Chief N. E. Benson, First Assistant Chief A. M. Cushman, Second Assistant Chief S. L. Gerdine; Foreman I. V. Wiggins of Hose Company No. 1, Assistant Foreman of Hose Company No. 1 W. T. Zetrouer, Foreman A. W. Sargent of Hose Company No. 2 and Assistant Foreman E. A. Taylor of Hose Company No. 2.

They will draft laws to govern the department in general and rule upon all offenses not in accordance with its regulations.

CALLED FOR THURSDAY.

Meeting of S. P. C. A. Will Be at Col. Matheson's Offices.

A special meeting of the Society for Prevention of Cruelty to Animals has been called to meet at the offices of Col. C. Matheson on Thursday evening at 4 o'clock.

All members who have signed up, and all parties interested in the movement, are requester to attend this meeting and further this work in our city.

Mrs. Sanchez, the president, is very anxious that the society get down to business, and would be pleased to see many of the citizens at the meeting.

A Card of Thanks.

When men will take the trouble and do all kinds of underhand tricks to beat me out of the Ford Auto Agency, the machine really must be a good thing. But it is the best free advertisement for us. Thanks, Gentlemen.
